

# VELA HIP HOP 300/300E

THE SAFEST CHILDREN'S CHAIR ON THE MARKET

**VELA HIP HOP 300/300E IS A SMART HEIGHT ADJUSTABLE CHAIR FOR CHILDREN WITH SPECIAL NEEDS AND DISABILITIES – FOR LEARNING, TRAINING, PLAYING AND GENERAL PRACTICAL AND SOCIAL ACTIVITIES**

VELA Hip Hop 300/300E is excellent for preschool and school use as well as for leisure activities and at home, e.g. in the kitchen, at the dining table or for homework. The electric height adjustment of the seat takes the child from "playing height" at 26 cm to "work desk height" at 64 cm.

VELA Hip Hop 300 with gas spring adjustment and VELA Hip Hop 300E with electric adjustment are both available with different seat and back sizes including a number of adjustable features and a wide range of accessories. It is therefore suitable for a diverse group of children, such as children with limited mobility, children suffering from CP and children with ADHD.

## Safety

The stable base and central brake stop the chair from moving and make it easy to get in and out of the chair. The very low seat position makes it possible for the child to get from the floor to the chair on their own.

## Comfort

The ergonomic sitting unit is designed for optimal sitting comfort and support. The height, depth and tilt of the seat may all be adjusted as may the height, angle, and position of the backrest. For even more comfort, tilt-in-space adjustment allows the child a comfortable resting position.

## Mobility

The chair is easy to move around due to smooth-rolling castors and the push handle. Easy height adjustment and adjustable armrests facilitate mobility, access and transfer.

## Top quality and design

The design focuses on ergonomics, safety and VELA's high quality standards. Moreover, the chairs have been developed to comply with all applicable requirements and standards.

VELA Hip Hop 300E
